

Welcome to a celebration of new local film!

Over the last few years Glasgowbury has been working within the education and community environments to develop interest and opportunities in film and the film industry.

Covid 19 put a halt to our planned inaugural Sperrin Film Festival in March 2020 which would have been the final event in a series of workshops held in our Cornstore Creative Hub and local schools.

With restrictions still in place we are going virtual with a reduced programme to give you a taste of the talent of our local filmmakers and animators and invite you to tune in to the Premiers!

Check out the programme for info about the short films and the film makers.

Keep an eye out for dates when we can resume our Film Club and Film workshops and get in touch to join in!
